PRESS RELEASE

Austrian Premiere of the
ART WITHOUT LIMIT International Film Festival – *“Best of...”*
1. Mai 2026 in Wolkersdorf im Weinviertel

Powerful Voices.
True Stories.
Inclusion in Action

Founded in Pristina, Kosovo, in 2019, the **ART WITHOUT LIMIT International Film Festival** is a moving plea for diversity, creativity, and humanity – a true commitment to inclusion. With a selection of short films from around the world on themes related to disability, it has become an internationally recognized platform for powerful inspiration and touching, often overlooked voices. With a clear vision, an open heart, and artistic energy, the Festival acts as a bridge builder between worlds.

The Festival offers filmmakers from around the globe a platform to tell innovative, courageous, and socially relevant stories and to open up new perspectives beyond traditional narratives.

The Festival's special focus is on promoting and showcasing people with disabilities and special needs – both in front of and behind the camera.

On May 1, 2026, the ART WITHOUT LIMIT International Film Festival will now – as a first step “going international” – celebrate its **Austrian Premiere** with an exclusive **“Best of...”** selection, presented by KULTURWOLKE in Wolkersdorf in the Weinviertel region. The program will feature internationally acclaimed short films from past festival editions, impressively reflecting the festival's artistic and social vision.

In addition to the film screenings, audience discussions, meetings with people with disabilities, and talks with filmmakers and experts are planned. Exhibitions (including a photo documentation on ME/CFS and prosthetic technology) will be held in the foyer. These formats create space for personal exchange, reflection, and direct encounters, making inclusion not only visible but also tangible.

The Austrian premiere is not only a cultural highlight, but also an invitation to rethink inclusion, diversity, and social justice through the power of film. The ART WITHOUT LIMIT International Film Festival is more than a film festival – it's a movement that understands art as a driving force for social change and connects international perspectives with local communities.

ART KNOWS NO BOUNDARIES – STORIES THAT CONNECT.
